Upgrading from Sage 50 Accounts 2012

Why upgrade from Sage 50 Accounts 2012?

The latest version of Sage 50 Accounts includes major new functionality in the features you use on a daily basis as well as access to a growing catalogue of brand-new add-ons, so you can truly customise your accounting software to the needs of your business.

What's in the latest version of Sage 50 Accounts?

Bank Feeds powered by Yodlee*

Match payments and receipts quickly and easily, discard personal transactions, and **spend less time on time consuming data entry**, giving you a real-time view of your cash position at a glance.

Get paid faster with Invoice Payments*

By adding Pay Now buttons onto your invoices, **your customers will be able to pay you instantly**, easily and securely.

Improved error correction

Quickly and easily edit journals, un-allocate credits and payments from an incorrect invoice and track which users have edited transactions.

User interface consistency

Customise exactly what you want to see when using the programme and that will be remembered when you log out.

Drill down on aged debtors and creditors

Get more control of who owes you money and who you owe money to, without the need to move in and out of different screens.

Plus, access to our catalogue of add-ons

The latest version of Sage 50 Accounts is essential for access to our **new and up-coming add-ons** to help you customise your business software.

Extending Sage 50 Accounts beyond the desktop
